THANK-YOU LETTER FROM THE ORGANIZING COMMITTEE

Dear esteemed speakers, sponsors, exhibitors, & delegates,

On behalf of the Organizing Committee, we extend our heartfelt gratitude for your invaluable participation in the highly successful **Vietnam Security Summit 2024**, held on **May 30th, 2024**. We are honored to have hosted esteemed delegates across various fields at **Vietnam Security Summit 2024**. This year's event was a resounding success, & we believe that it provided a platform to address the challenges & opportunities that AI brings to cybersecurity through our insightful keynote presentations & engaging conference sessions. With the aim of addressing global cybersecurity issues, **Vietnam Security Summit 2024** served as a prestigious forum for public sector, enterprises, & solution providers to exchange valuable knowledge on safeguarding critical infrastructure & strengthening resilience against cyber attacks in an AI-powered landscape.

Once again, we express our sincere appreciation for your presence & active participation in **Vietnam Security Summit 2024**. Your support has been instrumental in our achievements, & we hope to have your continued support in our future endeavors.

We eagerly look forward to welcoming you to **Vietnam Security Summit 2025**.

With utmost gratitude,
IEC Group

6th VIETNAM
SECURITY
SUMMIT 2024

EVENT OVERVIEW

In its highly anticipated return, the **Vietnam Security Summit 2024**, with the theme "**CYBERSECURITY IN THE AI-DRIVEN WORLD**" successfully wrapped up at the **InterContinental Hanoi Landmark72** on **May 30, 2024**. The one-day summit marked a significant milestone, featuring an impressive turnout of over **1000 high-level attendees** & establishing itself as Vietnam's premier cybersecurity gathering! The event's comprehensive agenda included not only cutting-edge conference sessions & an expo but also exclusive networking opportunities through a prestigious gala dinner & executive luncheon, creating the perfect environment for industry collaboration.

Vietnam Security Summit 2024 served as a platform for over **40 speakers**, including leading experts, domestic & international IT solution providers...to share information & discuss solutions & recommendations for the ever-evolving cybersecurity challenges in an AI-powered landscape. Through a keynote session & four specialized conference tracks, discussions delved into critical areas such as **generative AI, application & mobile security, risk management**, & **data protection**.

Alongside the conference, the International Expo displayed a wide range of best-of-breed technologies from over **40 leading technology providers** in different domains of cybersecurity, such as: Network security, Open visibility platform, Endpoint detection & response, Unified threat intelligence platform, UEM, Cyber Comm& platform, MetaDefender IT-OT Access, etc.

KEYNOTES SESSION

CYBERSECURITY IN THE AI DRIVEN WORLD

Featuring a diverse & high-profile speaker line-up, the Keynotes session took delegates through the latest trends in AI-driven cyber threats, the potential risks that AI poses to their business activities in terms of cybersecurity, & the best practices for leveraging AI to safeguard national data assets from evolving cyber threats. In addition, various topics related to ransomware & cybersecurity, such as effective strategies for preventing, responding to, recovering from ransomware attacks as well as how AI can be leveraged to detect & mitigate such attacks, were also discussed during the Executive Talk.

Opening Remarks

MR. PHAM DUC LONG

Deputy Minister, Ministry of Information & Communications

Vietnam Cyber Security Landscape: Challenges & Solutions

MR. TRAN DANG KHOA

Deputy Director General, Authority of Information Security

Challenges & Orientation of Securing the National Database on Population in the Rise of AI

COLONEL NGUYEN ANH TUAN

Deputy Director, National Population Data Center, C06

eKYC - The secure key to digital transactions in the era of AI

MR. NGUYEN QUANG HUY

Director of Electronic Identity & Verification Platform

Detecting, Preventing, & Responding to Ransomware in a Complex Threat Landscape

MR. VU LE

Senior Security Solutions Engineer

From Risk to Resilience: A Roadmap to Zero Trust with Everywhere Security

MS. MAI NGOC TU

Development Manager

SESSION 1

CRITICAL INFRASTRUCTURE SECURITY

Cyberattacks on critical infrastructure have emerged as a major trend in recent years, as many organizations & utilities have implemented advanced technological systems, leading to increased connectivity & vulnerability in essential services & industrial control systems. The Conference Session 1 focused on challenges confronted by critical infrastructure operators in terms of protecting vital systems; how to detect & mitigate cyber threats to securing Operational Technology (OT)/ Industrial Control Systems (ICS) & came up with some practical solutions for critical infrastructure protection.

Strengthening your Data Infrastructure against Ransomware

MR. LIN GUANRUI

Field CTO, Asia Pacific Enterprise Data Center Marketing & Solution Sales Dept

Comprehensive & Advanced Protection for Critical Infrastructure

MR. LA MANH CUONG

General Manager cum VP of Research & Development

Solutions Engineer

Cybersecurity for Smart Factories & Smart Cities

MR. PHAM TUAN ANH

Group Chief Information Officer at Becamex IDC Corporation cum General Director at Vietnam Technology & Telecommunication JSC

Major Trends on Cybersecurity for Operational Technology (OT)/ Industrial Control Systems (ICS)

DR. NGUYEN THANH BINH

Global Cybersecurity Consultant

SESSION 2

DATA SECURITY & DATA PRIVACY IN CYBER WORLD

Hybrid environments have become increasingly vulnerable to cyberattacks in recent years. In fact, 66% of all cyberattacks targeted cloud infrastructures, with SaaS platforms & on-premise systems also seeing significant breaches, at 67% & 51% respectively. Throughout the session, mind-blowing tactics using cutting-edge technologies from world-leading IT providers were proposed to enhance the understanding of data protection, endpoint security, & threat detection tools. These innovative solutions aimed to improve the detection & mitigation of data breaches & ransomware attacks.

SESSION 4

MOBILE & APPLICATION SECURITY

With 99.19 million people in the country, including 78.44 million internet users (79.1%) who spend an average of 6 hours and 18 minutes online each day, and 168.5 million smart mobile devices, the demand for effective mobile security solutions is more critical than ever. The conference addressed key mobile security issues, focusing on enterprise data protection, latest security trends, AI and big data applications in cyber fraud prevention, common mobile scams, and strategies for securing devices in remote work environments, providing a comprehensive overview of the current mobile and application security landscape.

EXPO HIGHLIGHTS

OVERALL ASSESSMENT

95% of exhibitors evaluate their participation positively

SALES CONVERSATIONS

93% of exhibitors evaluate them positively

QUALIFICATIONS OF VISITORS

97% of exhibitors evaluate them positively

Our vibrant Expo brings together **40 tech giants** in security such as: Sophos, Sangfor, Cloudflare, Samsung, Opswat, Viettel Cyber Security, HPID-Thales, SmartNet, Exclusive Networks, IBM, ManageEngine, SANS, Huawei, Cisco, F5 Networks, Fasoo,.... **Unveiling breakthrough technologies** that address the evolving landscape of cyber threats, this pioneering exhibition demonstrates how next-generation solutions are transforming digital defense - from advanced Data Loss Prevention & Cloud Security to IoT/5G protection, Mobile Device Security, & next-generation defensive technologies including Endpoint Security, DDoS Protection, XDR, CNAPP, & integrated IT/OT Security frameworks.

The Expo provided invaluable access to C-level executives, industry leaders, and key potential clients. The connections we made here have already opened doors to promising business opportunities, highlighting the exceptional value and impact of this event.

Mr. Vu Le

Senior Security Solutions Engineering, Sophos

As a technology provider, we were truly impressed by the summit's cutting-edge digital check-in system and exceptional organization. The dynamic, interactive environment created an ideal platform for showcasing our solutions and engaging in valuable discussions about security challenges with enterprise leaders.

Mr. Leslie Wong

Country Manager, F5

This year's expo drew unprecedented interest from the tech community, with participation from numerous industry-leading vendors and an impressive turnout of attendees. The event was impeccably organized, ensuring a smooth and engaging experience for all participants.

Ms. Mai Ngoc Tu

Customer Development Manager, Cloudflare

The Expo was exceptionally professional and well-organized, showcasing a comprehensive exhibition with a diverse range of security solution providers. Everything was impressive and perfectly aligned with the current market needs and technological advancements, both globally and in Vietnam.

Mr. Pham Tuan Anh

Group Chief Information Officer at Becamex IDC Corporation cum General Director at Vietnam Technology & Telecommunication JSC
